

About GANANA

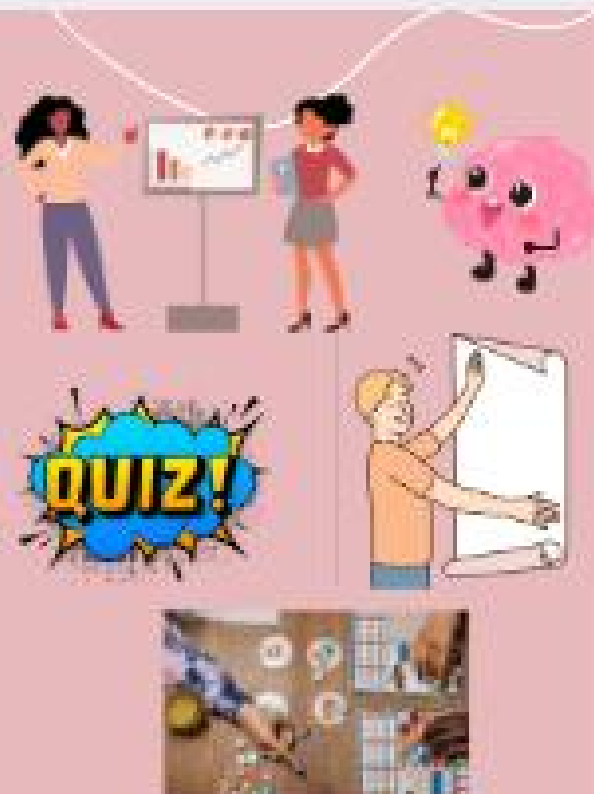

Inaugurated In March 2005

To make mathematics more interesting by eliminating the fear of learning maths and enjoying the beauty of the subject.

Aims and Objectives

- To improve mathematical skills and inculcate the habit of analytical thinking among the students.
- To eliminate the fear of mathematics and indulge them in mathematical recreation
- To provide a platform to exhibit creative and innovative talents
- To provide an opportunity and create an atmosphere for the students to study and present exciting topics in mathematics.
- To have a wider context of mathematics.
